This game is not a cozy village simulator.

But all the games look like that competitive RTS matches against the timer.

You need to build woodcutter\farms\houses and quickly overpower the enemy since soldier costs only 5 food and no spawn delay.

AI is bad: when monsters come to you or you move ton of soldiers the game freezes for a few moments. Or if you build your base close to the edge of the screen - the game crashes because AI.

Luckily there is not much levels - so game is easy to finish.
